Date of Interview: 06 December 2007.

Type: a) ☒ Telephonic b) ☐ Video Conference

Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's Representative's identified both MacInnis and Cherry as failing to disclose the generation of a pixel of an output image during blanking processing, because MacInnis discloses not updating data, e.g. CLUT data, during blanking because of time constraints and Cherry's disclosure of updating CLUT data during blanking intervals does not result in generation of a pixel in the output image.

(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)
